Developing Resilience in Pre-teens and Teens Amid a Pandemic

Spark Learning Center is proud to announce our newest course offering, aptly named: Adventure Awaits! This week-long experience that is designed to help build and reinforce self confidence, resilience, and self reliance.

We created this experience specifically for our Spark students to inspire, motivate, train and enrich them over a 4-5 days. Adventure Awaits has been designed to intensely grow our kids through developmental experiences in our natural

New Class!

environment.

Created for kids age 4-6 years! This fun and interactive class allows children to explore their world through speaking, listening, beginning writing and reading!

My World

This course has been developed for kids age 12-15 explore, investigate, observe and develop key leadership, confidence, resilience and reliance skills for life-long success. Kids will stay in minimalistic beach cottages (divided by gender) that are device free. They will work together on cooking, cleaning and team activities.

All the course activities will be conducted in a group, and there are excellent opportunities for learning critical socialization and effective communication skills as well as independence and self reliance. This is a fun and positive experience, but not without hardship and challenges meant to grow confidence.

Additionally, the kids will be introduced to environmental awareness activities via the Leave No Trace ethics - a set of principles, promoting minimum impact on the outdoors. Further, they will get the opportunity to grow through unique team-based workshops and activities.

Through shared challenges, adversity, failure and success, students discover and develop new skills, confidence and passion.

We hope that you will join us for this exciting and enriching journey!
